(a) The statistics in this table refer only to accidents to persons covered by the South Australian Workmen's Compensation Act; they do not show the number of accidents which occurred during the period but are based on reports of claims closed during the period and of unclosed claims of three years duration at the end of the period. For the purpose of the table an industrial accident is "a compensated work injury causing death, or absence of the injured person from work for one week (seven calendar days or five working days) or more, excluding journey cases, cases occurring during a recess period, and disease cases". During the year ended 30th June 1966, insurers received a recorded 58,350 effective workmen's compensation claims and paid \$4,725,000 in compensation.

(b) Compensation for wages lost, hospital and medical expenses, and lump sum settlements.

No. 60—Articles Produced in Factories

The following table gives details of production of a number of articles in South Australian factories.

Because of the necessity of concealing details for individual producers (the Census and Statistics Act requires all such information to be treated as strictly confidential) details concerning a number of major items—e.g. motor vehicles—have been withheld from publication.

Note: Building employment covers all contractors and sub-contractors and employees of contractors, sub-contractors, and government instrumentalities, who on the last working day in the month were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs, and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.
